Tops Materials

Kemresin® Epoxy Resin

Kemresin® is perfectly suited for use in the lab setting. With ultra-smooth non-porous surface appearance, composed of 1 inch thick molded epoxy resin, these tops come in four different colors. Colors include black, grey, putty and slate. With resistance to many acids, alkalis and solvents, this work top is also resistant to both heat and physical use. These Kemresin® tops can be used wherever the highest physical and chemical resistance properties are required.

Cable management organizes power and data cables for an organized lab.

MONITOR ARM

LCDARMBB

This monitor arm rotates 360 degrees at two points. With an adjustable head with universal monitor mount, this arm easily clamps onto any BasikBench.

CPU HOLDER

CPUHOLDER

The CPU holder attaches via a bracket mount and swivels side to side. The heavy duty holder is adjusted 12" to 20" high and 3.5" to 9" depth.

FIXTURES

Choose up to two fixtures per side. Fixtures can be installed on the assembled or knockdown version, as well as ordered separately. The AIR/VAC/NIT service fixtures include PVC hose at desired length. GAS service fixtures include stainless steel hoses at desired length. Tech sheet required for installed fixtures. Fixture and hose come preassembled.

Hose Type	Part Number	Length
AIR/VAC/NIT	BBFXPV046-IN	46
AIR/VAC/NIT	BBFXPV096-IN	96
